

When we pause to consider this wonderful earth,  
we see some incredible sights...

a world full of beauty suspended in space,  
with billions of twinkling lights!

Perhaps you have wondered just how it got there,  
... perhaps you've been tempted to guess?  
(It didn't explode from a cloud of hot gas;  
explosions make only a mess!)

Instead it was lovingly made by our God,  
whose power and great understanding  
are far beyond anything thought of by man;  
no problem was found too demanding.

# The work of His fingers

An illustrated rhyme  
in praise of creation

**ALISON BROWN**, a former primary school teacher, lives with her husband and five children in Co. Fermanagh, Northern Ireland. Alongside her love for drawing in both ink and coloured pencil, she takes great delight in turning the thoughts of children to the amazing truths of the Bible. Keeping in mind the kind of questions inquisitive children often ask about their world, she has written and illustrated this beautiful book which will help them think about the wonders of God's creation.

*When I consider your heavens, the work  
of your fingers, the moon and the stars,  
which you have ordained, what is man  
that you are mindful of him?*

Psalm 8:3-4.
